

SHAKE STYLE PANEL

Modelled after traditional **Cedar Roof Shakes**, this **Premiere Metal Roofing System** holds traditional **beauty** and **elegance** while adding the **value** of being a near maintenance free life long addition to your home.

Traditional real wood shakes hold an unmatched natural **beauty**, however come with a lot of maintenance and a life expectancy much shorter than **Metal Roofing**. The Natural Weathered Look of a **Cedar Shake** is achieved with a unique double embossed stamping process that gives both definition and **architectural beauty** to each panel.

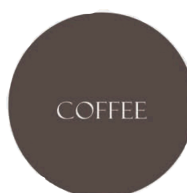

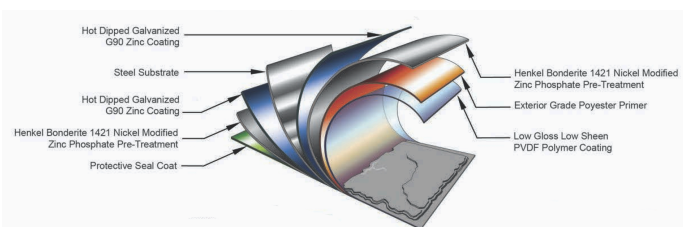

- Kynar 5000 Coated Rolled Steel Construction.
- Double Embossed Metal Stamping Process
- Floating Clip System
- Hidden Fastener System
- 52" x 12" Panel Dimension
